# Fleet Management

Record and track operating units

Track by two different operating units (eg Kms & Fuel Burn)

Record and track defects

Produce job cards with outstanding defects listed

Print comprehensive reports listing defects, maintenance, etc

Detailed vehicle/machine cost report

Vehicle/machinery tracking by Rego/ID and location

Forecast service/maintenance reminders by operating units and date

Multiple service/maintenance reminders for each vehicle/machine

Quick Entry screen for entering operating units and defects:

**Vehicle Quick Entry**

By Rego / ID | By Make | By Customer

Date: 4/09/2018
